

Drug and Alcohol Treatment

- [IThrive](#)
303-776-8184
24 9th Avenue, Longmont, CO 80501
 - Early intervention program for teens
 - iTHRIVE is a bi-lingual early intervention program for teens struggling with drugs/alcohol abuse and it is also for the parents of these teens. Through a powerful combination of group therapy, experiential learning, parent education and individual psychotherapy (optional to both parents and teens), iTHRIVE supports an adolescent's right to joy and productivity and we also support their families in reclaiming hope and happiness. Our groups offer a place for teens and parents to talk and process, receive support, and learn the tools and skills they need for recovery and for repairing relationships.

2100 S. Cherry Street, Denver, CO 80222
(888) 850-1890
 - ADOLESCENT INTENSIVE OUTPATIENT PROGRAM (IOP)
 - For ages 13 to 18, Sandstone Care's adolescent program is over 17 hours a week, predominantly after school hours. This program includes a heavy academic and vocational component (two-hour group academic support sessions for three days a week as well as weekly individual sessions with the academic & vocational adviser), weekly family sessions (multi-family group sessions and individual family sessions, if necessary), three-hour group therapy sessions for three nights a week (process, educational, and experiential sessions), and weekly community activities (private sessions at Phoenix Multisport as well as Sandstone Care-hosted AA meetings).
