

# YOUTH NOMs SURVEY OUTCOMES

## FALL 2018

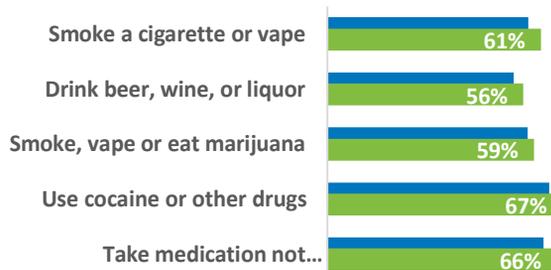

**THINK BACK OVER THE PAST 30 DAYS AND REPORT HOW MANY DAYS, IF ANY, YOU USED THE FOLLOWING SUBSTANCES:**

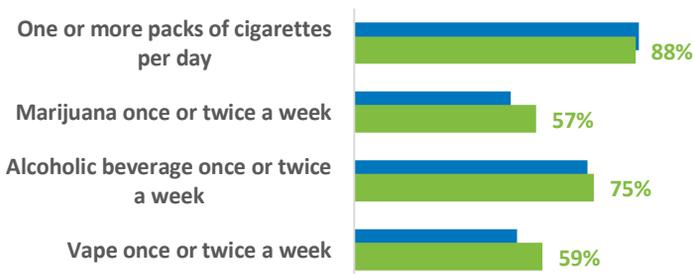

The chart on the left displays the percent of students using the indicated substance **1 or more days over the past 30 days**. 13% of students that consumed alcohol in 30 days prior to the **pre-survey**, expressed decrease usage on the **post-survey**; similarly, 12% of students expressed decrease usage of marijuana.

**I WOULD SAY NO IF SOMEONE TRIED TO GET ME TO:**

The chart on the right displays the percent of students that agreed, or strongly agreed, that they would say **NO** if someone tried to get them to use the indicated substance. Compared to the **pre-survey**, students were more likely to say **NO** to all of the indicated substances.

**HOW MUCH DO YOU THINK PEOPLE RISK HARMING THEMSELVES WHEN THEY DO THE FOLLOWING THINGS:**

The chart on the left displays the percent of students indicating there is **Moderate or Great Risk** participating in the given behavior. A higher percentage of students felt using marijuana, consuming alcohol, or vaping once or twice a week presented greater risks after completing the course.

**POST-SURVEY:**

**79% of students** completing the course agreed/strongly agreed that they **learned new information** about the impact of drugs and alcohol on the brain, body, and behavior. **79%** agreed/strongly agreed that they would **use the information they learned** to make decisions about using various substances in the future.
